

Anewgo Websites - Aug25 Mini-Release Notes

Improvements

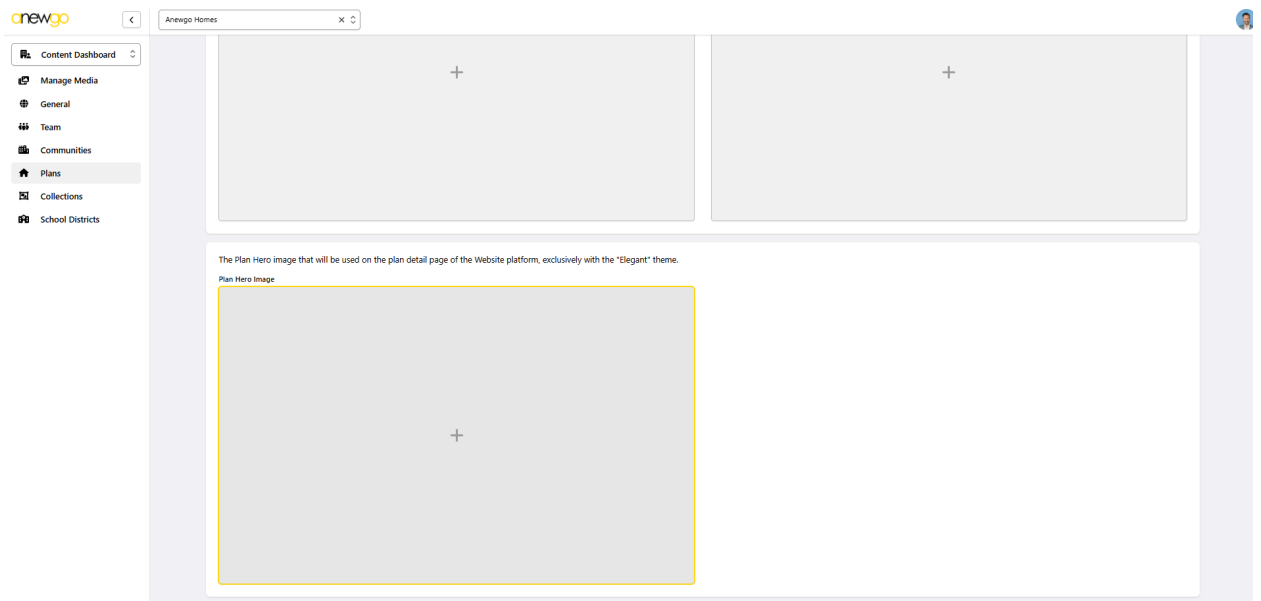

- You can now use the Customize Builder Terms to update List Header and Breadcrumbs

- Various improvements to schema markups
- Ability to now choose if HTML Code/script is added to <HEAD> or <BODY> sections

- **Elegant Theme Only:** Added the ability to choose a specific plan image for the page hero

- Added the ability to add iframes to the main content section of pop-ups

Fixes

- Fixed issue where Secondary Contact Link on Header was getting removed after publish
- Anchor links are now working on Shared Sections
- Form event issue was fixed where invalid forms were firing the form-submit event
