

Anewgo Websites - Release Notes - February 25, 2026

Community, Plan & Lot Management

- **Easier Plan Management at the Community Level:**
We made some further upgrades to this page from our previous release to make for better and more accurate viewing of data on Plans and Elevations.
 - Including showing data on the Community Plan card directly from the assigned Elevations

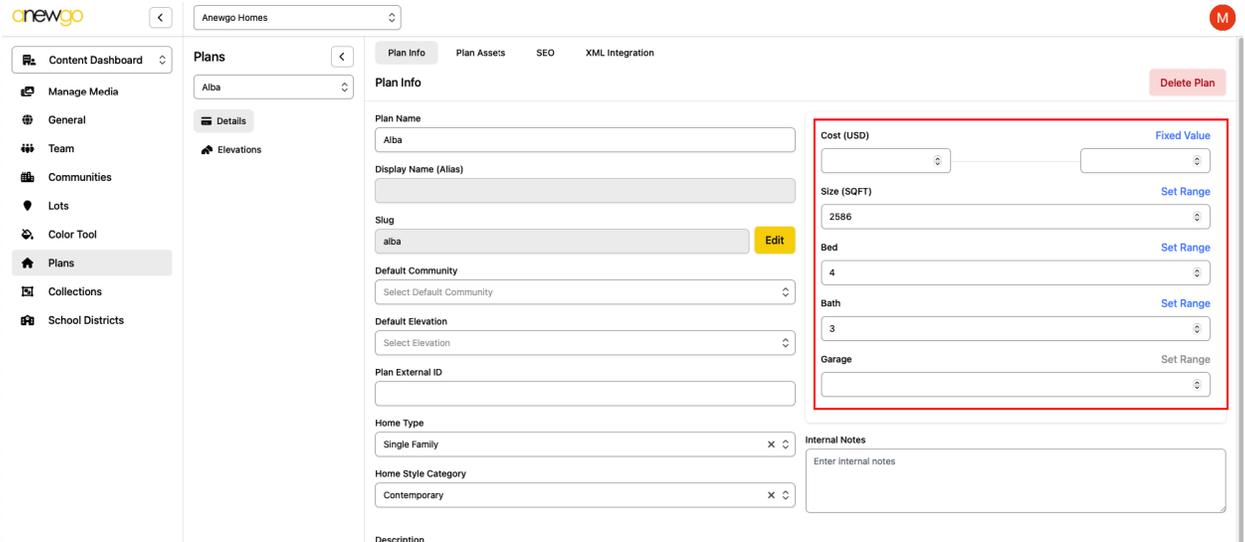

Plan Name	Cost (USD)	Size	Beds	Baths	Garage
Bristol American Farmhouse AMF	\$671,000.00	2934 sqft	4	3	2
Bristol English Cottage EC	\$691,000.00	2906 sqft	4	3	-
Bristol Tudor T	\$681,000.00	2929 sqft	4	3	-

Plan Name	Cost (USD)	Size	Beds	Baths	Garage
Bristol	\$671,000	2,906 sqft	4	3	2

- **Updated Plan Info & Details:**

The Plan and Elevation Info sections have a fresh look and improved data input, making it easier to enter and review plan details. You can now input both Fixed and Range values on the plan and community levels

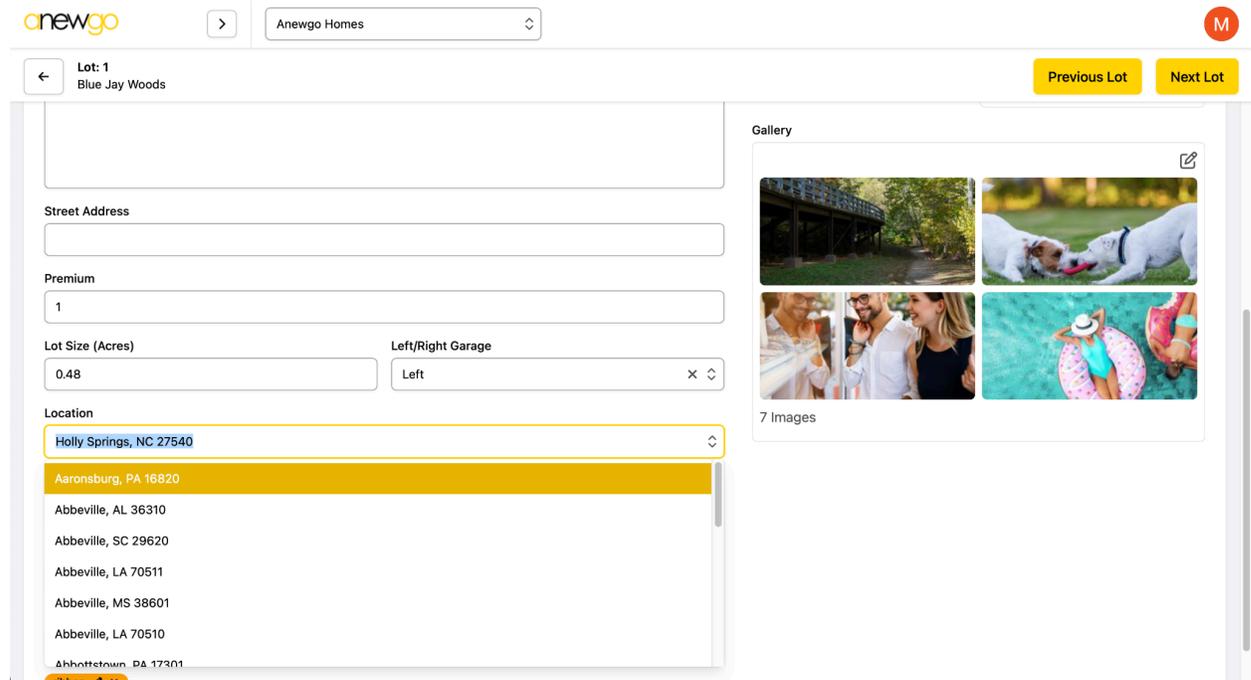

- **Lot Management UI Refresh:**

The Lot Management page has been redesigned for easier navigation and editing, and lot inset images now update reliably when statuses change.

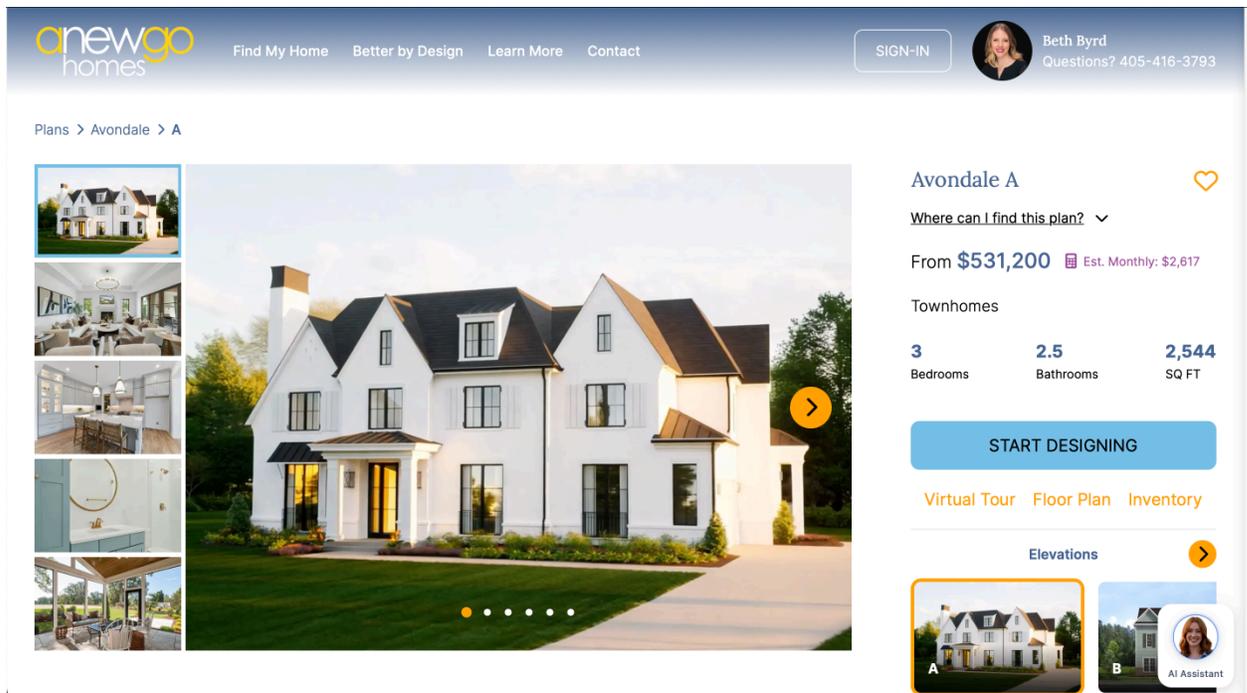

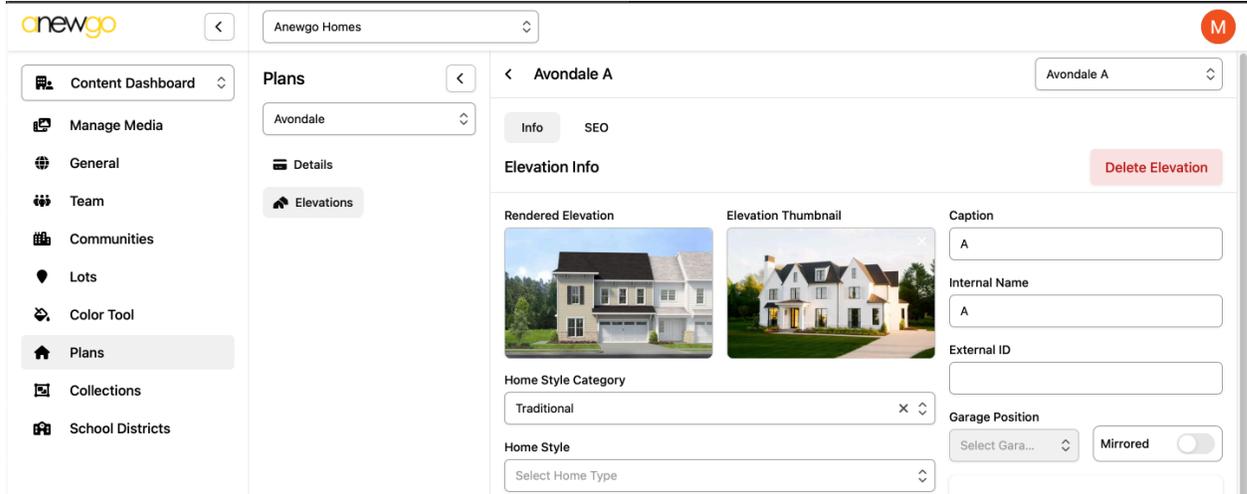

- **Lot Location Improvements:**

Improvements made to Lot Location input to rely more on specific location selection instead of manual input.

- **Custom Elevation Thumbnails:**

Custom elevation thumbnail images can now be added on the Plan level. The custom image will display on your website in place of the rendered thumbnail

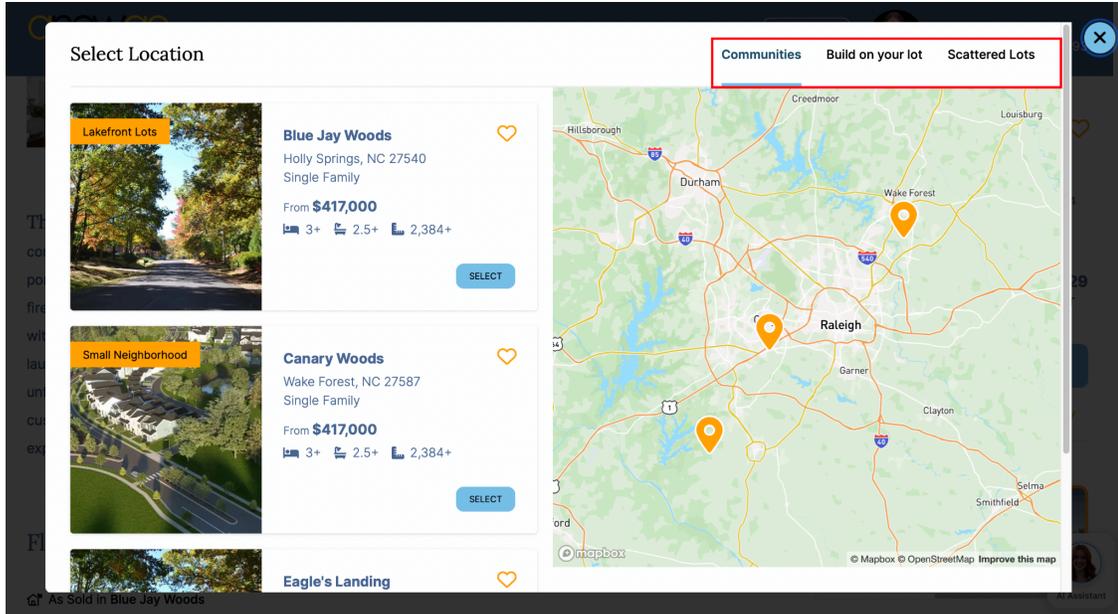

- **Model Home Address Linking:**

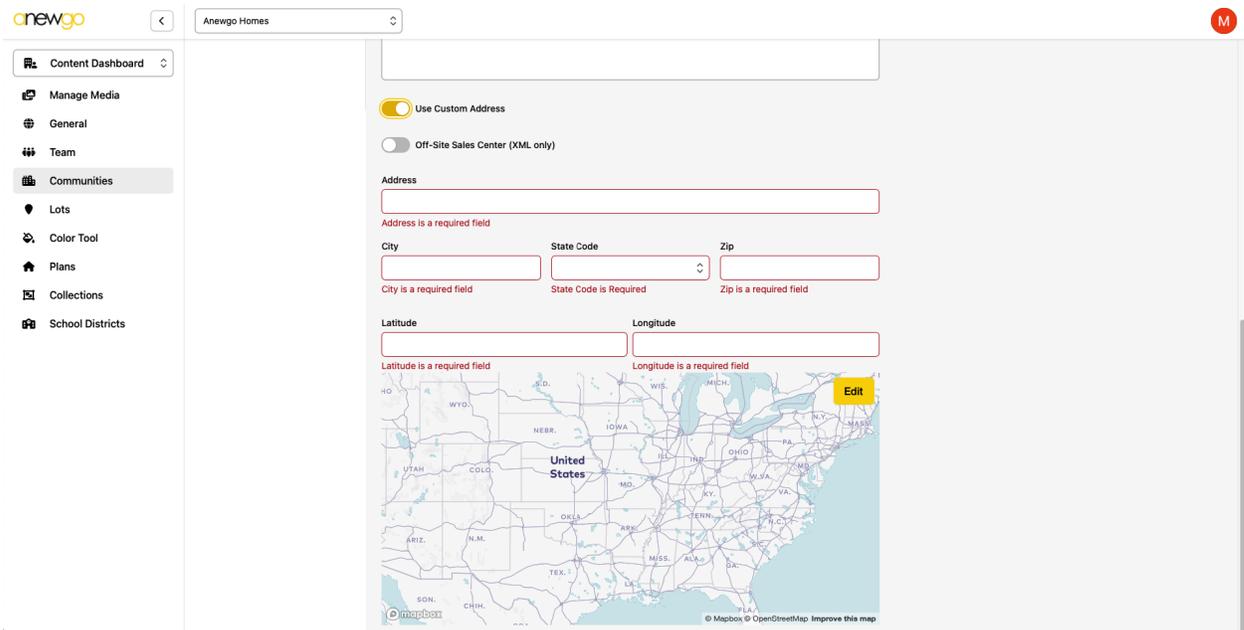

Sales Center addresses now link directly to a 'Get Directions' link to provide quick and easy access to directions from the user to you

Community & Sales Center Upgrades

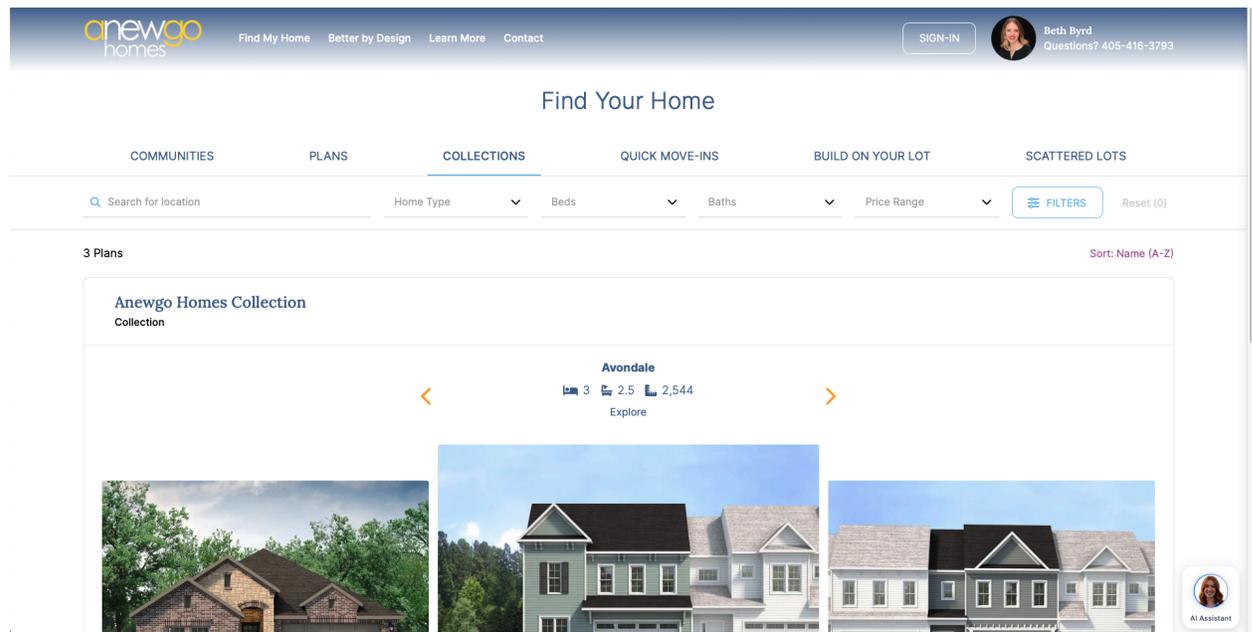

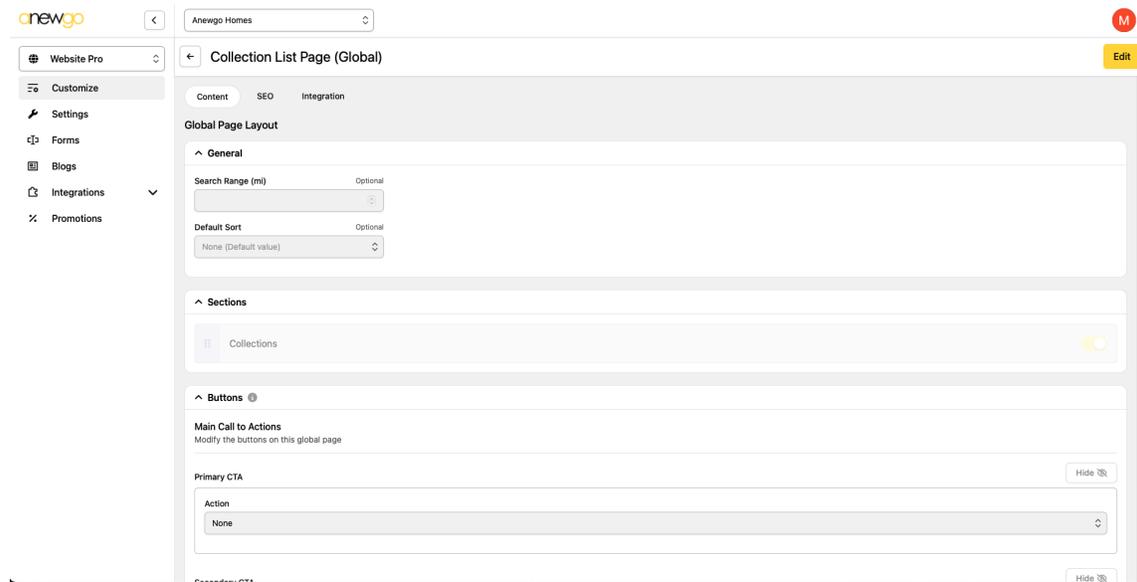

- **Improved Community selection pop up**
When starting the design process, Location select is now more clear and set up by Community type, where applicable.

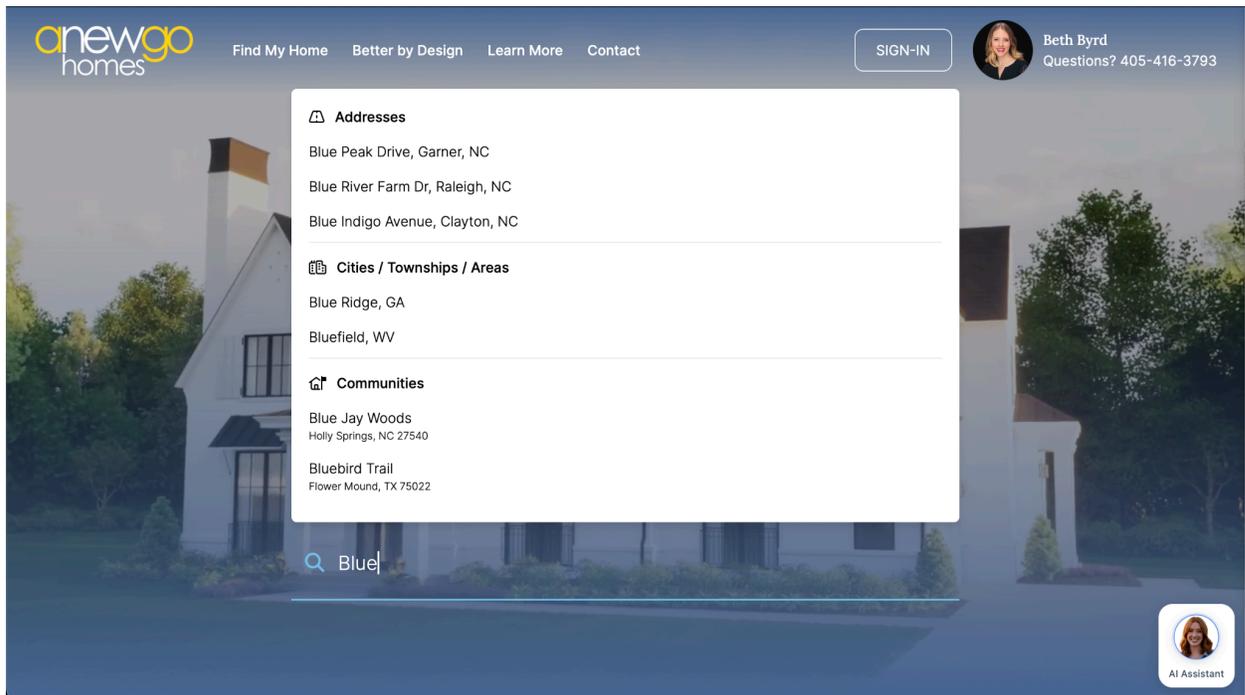

- **Scattered Lot Inventory Updates:**
Uploaded thumbnails now display on Scattered Lot lists. We also removed lot numbers and replaced Community name with Location on lot cards, for more clean and accurate data.
- **Custom Sales Office Address:**
Your communities can now have custom addresses for their Sales Offices that properly populate on your Website and XML feed. Located on your Community Sales Center tab.

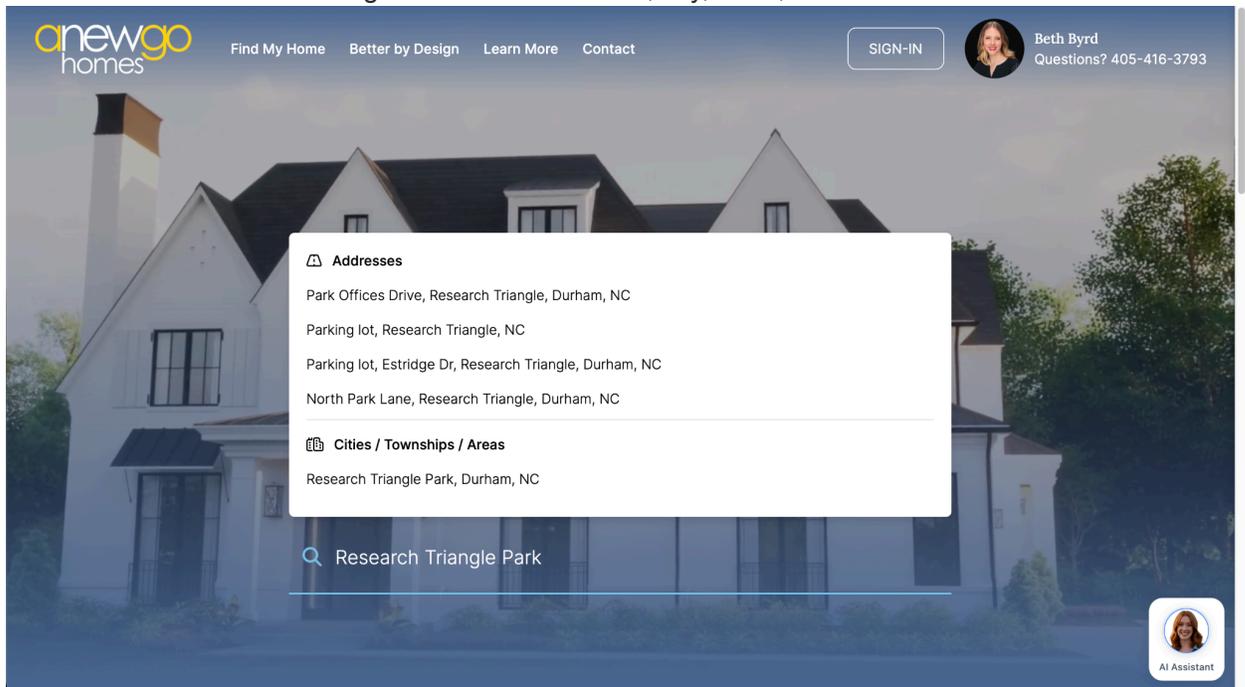

- Collections Global Pages:**
 Rolled out a new global Collection Listing Page with filtering options, making it easier to browse and discover plans by collection.

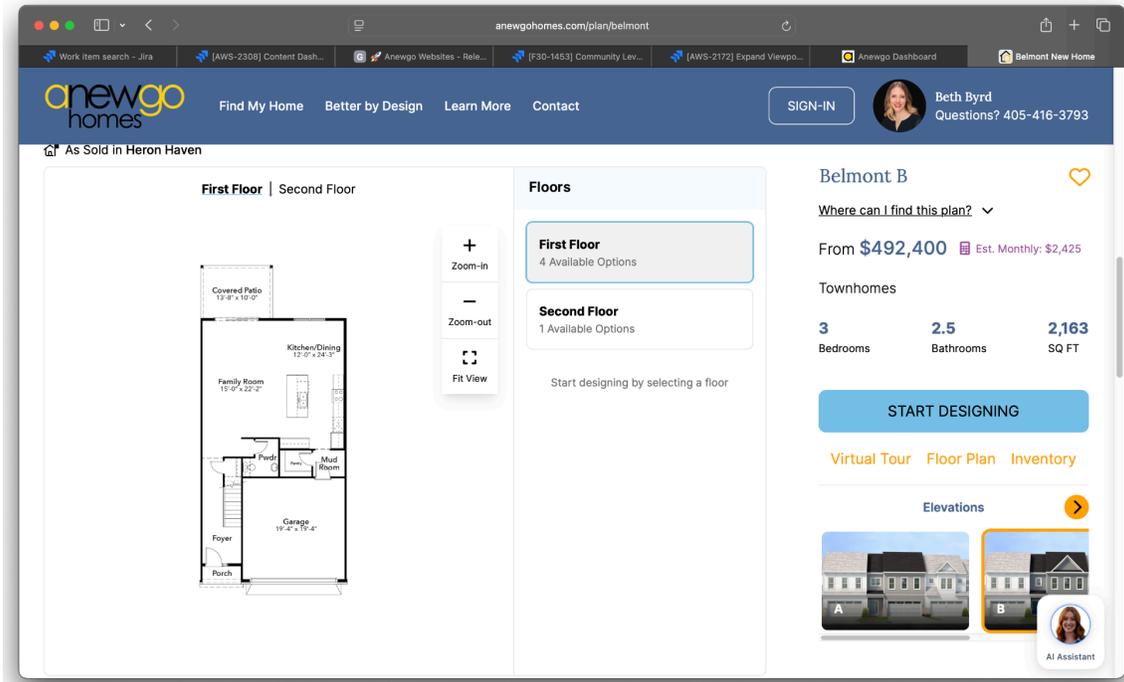

- **Enhancements to Searching:**
 - Users can now perform more targeted searches for better results.
 - Direct navigation implemented for searching specific Communities.

- Location searching based on an address, city, state, or area.

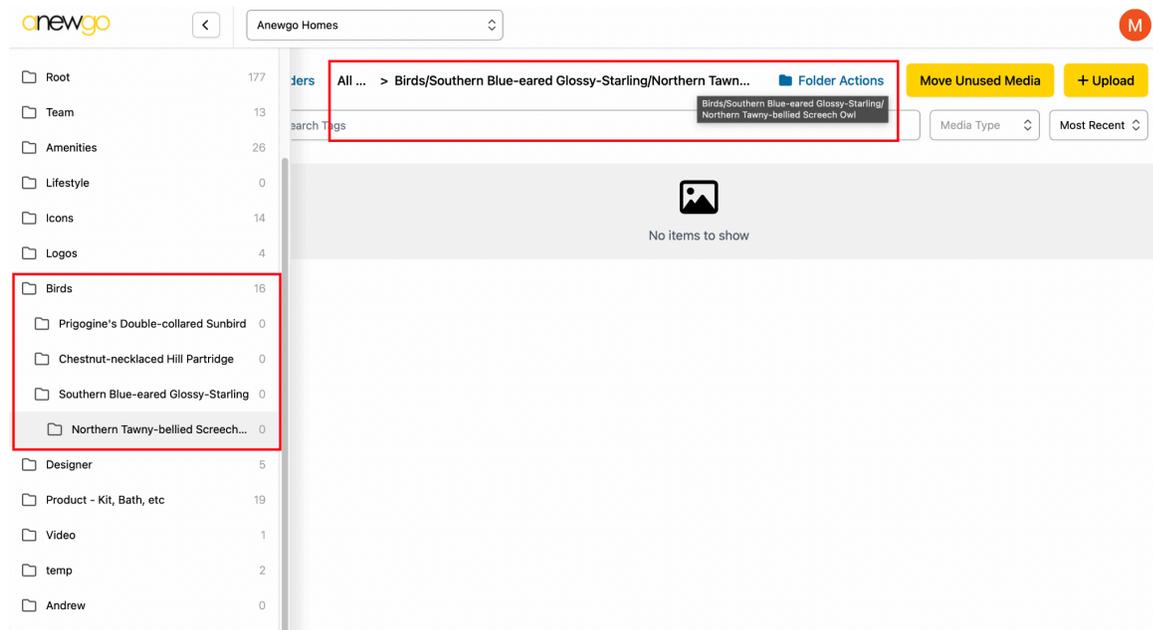

- Bigger Interactive Content on Global Pages:**
 We expanded the size of our interactive content (Floor Plans, Site Plans) on Global pages. Now users can get a better view and interaction of all of your content.

Media, Galleries & Video

- Better Media Management:**
 Creating subfolders in Manage Media is now easier, with keyboard shortcuts and better path visibility

- **Video Link Support:**
Video Link uploads now have broader support allowing users to upload YouTube and Vimeo links more reliably.
-

Brochure & PDF Improvements

- **Bigger, Better Floor Plan PDFs:**
Floor plan pages in PDFs now use the full page for larger, easier-to-read images, and only show relevant details for each home type.
 - **Cleaner Price Formatting:**
Prices in brochures are now spaced and formatted for better readability.
-

★ Favorites, Insights & User Experience

- **Favorites That Make Sense:**
We updated labeling on a user's favorites to clearly show when a plan, lot, or community is no longer available.
 - **Insights & Analytics Filtering:**
Location filters and browsing data in the Insights dashboard now work properly to ensure you have the correct lead data.
-

Data & Integration Fixes

- **Zillow Virtual Tours Displayed Correctly:**
Virtual tour links are now correctly tagged in the XML feed, so 3D tours appear as expected on Zillow and similar platforms.
-

General Improvements & Quality of Life

- **Dropdown Menus Improvements:**
All dropdown menus in Console now open when you click anywhere on them, not just the arrow.
- **Clearer File Uploads:**
You'll now see clear error messages if you try to upload files with invalid names or duplicates, so you know exactly what went wrong.
